## OUR MISSION

At **Enjoy Erica Art Studio**, our mission is to provide a space for all to explore their creativity and celebrate the joy of life through art. We strive to foster an environment where everyone feels supported, inspired, and empowered to create. We believe that art is a powerful form of expression, and by providing an accessible platform, we are able to bring out the best in each and every person who enters our online and in person studio experience. We value collaboration, innovation, and creativity to bring our dreams to life. We are dedicated to helping others discover their unique voice, and to expressing themselves freely and without judgement. We believe that there is no better way to spend your life than by celebrating it.

## MEET ERICA SOTO

Meet Erica Soto, an innovative mixed media artist and workshop facilitator whose artwork has been captivating audiences since she moved to Mount Vernon, NY from her home state of New Jersey. Erica is a self taught artist and has been creating professional works since 2004. She has been certified as a Therapeutic Art Life Coach and is passionate about creating art that is accessible to everyone.

Proud Minority Woman Business  
Enterprise of Westchester County

## WHO WE'VE WORKED WITH

## HOW IT WORKS

Our Art Program uses highly experienced teaching artists. They lead workshops in person or virtually for participants. We can accommodate groups of older adults and their caregivers, workers at home or back at the office or students of varying art skill sets. We are available to service adult day care centers, community centers, senior centers, assisted living communities, nursing homes, affordable housing, senior living communities, schools, parishes, corporate events and more.

We are a for profit woman/minority owned business. We also have a therapeutic art for life coaching certification that ties wellness, self care and art for entertainment together to bring to the public the joy and health benefits of creating art.
